1. FOREWORD BY HIS WORSHIP THE MAYOR

Matatiele Local Municipality's 2021/2022 Revised Service Delivery and Budget Implementation Plan (SDBIP) marks the contract between the Matatiele Local municipality and the community of Matatiele. This contract (SDBIP) helps facilitate the process for holding management accountable for its performance. The SDBIP is a management, implementation and monitoring tool that will assist the mayor, councilors, municipal manager, senior managers and community.

The SDBIP will enable the Mayor and Executive Committee to monitor and evaluate the performance of the Municipal Manager, enable the Municipal Manager to monitor the performance of senior managers, and for the community to monitor the performance of the municipality. This enables the mayor and the municipal manager to be pro-active and take remedial steps in the event of poor performance in order to improve performance. This SDBIP aims to ensure that all managers are problem-solvers, who routinely look out for unanticipated risks and problems and resolve them as soon as possible.

The SDBIP should therefore determine (and be consistent with) the performance agreements between the mayor and the municipal manager; and the municipal manager and managers reporting directly to the Municipal Manager and Middle Managers at the start of every financial year and approved by the mayor. A properly formulated SDBIP will ensure that appropriate information is circulated internally and externally for purposes of monitoring the execution of the budget, performance of both the senior and middle management and achievement of the strategic objectives set by council; including the outputs and deadlines for which they will be held responsible. In-year monitoring designed to identify major problems from an early stage and ensuring that the Mayor and Municipal Manager are taking corrective steps when any unanticipated problems arise.

The SDBIP serves a critical role to focus both the administration and council on outputs by providing clarity of service delivery expectations, expenditure and revenue requirements, service delivery targets and performance indicators. It is the output and goals made public in the SDBIP that will be used to measure performance on a quarterly basis during the financial year. Note that such in-year monitoring meant to be a light form of monitoring. The council should reserve its oversight role over performance at the end of the financial year, when the mayor tables the annual report of the municipality.

Municipal managers are encouraged to develop the SDBIP concept further so that it is meaningful and useful to managers. Many municipal managers will have some form of management plan and the challenge is to develop such management plans as a SDBIP.

Whilst the budget is approved yearly, service delivery and budget targets (revenue and expenditure per vote), it is imperative that in-year mechanisms are able to measure performance and progress on a continuous basis. Hence, the end-of-year targets are based on quarterly and monthly targets, and the municipal manager must ensure that the budget is built around quarterly and monthly information. Being a start-of-year planning and target tool, the SDBIP gives meaning to both in-year reporting in terms of section 71 (monthly reporting), section 72 (mid-year report) and Section 121 (end-of-year annual reports).

Therefore, the Mayor Approves the SDBIP for 2021/2022 in terms of Section 53 (1) (c) (ii) of Local Government: Municipal Finance Management Act 56 of 2003

CLLR. S MNGENELA

HIS WORSHIP THE MAYOR

2. INTRODUCTION

1.1 Vision & Mission

The development strategy for Matatiele Local Municipality seeks to contribute to the attainment of the Provincial and National development imperatives as outlined in the relevant policy documents. The municipality's development vision is as follows:

“Where nature, agriculture, tourism are investments of choice”

Matatiele Local Municipality's mission is:

“To create awareness on nature conservation

To promote and support agricultural activities

To promote and market Local Tourism organizations and Small, Medium and Micro Enterprises

To create an environment conducive for investment”

1.2 Legislative Mandates

The Municipal Finance Management Act (MFMA) of 2003 requires that municipalities prepare a Service Delivery and Budget Implementation Plan (SDBIP) as a strategic financial management tool to ensure that budgetary decisions that are adopted by municipalities for the financial year are aligned with their Integrated Development Plan.

Section 69(3) (a) of the Municipal Finance Management Act, Act 56 of 2003 (MFMA) requires the Accounting Officer to submit a draft Service Delivery and Budget Implementation Plan (SDBIP) to the Mayor:

- (i) no later than 14 days after the approval of the Budget and
- (ii) drafts of the performance agreements as required in terms of Section 57 (1) (b) of the Municipal Systems Act, Act 32 of 2000.
- (iii) The Mayor must subsequently approve the SDBIP no later than 28 days after the approval of the Budget in accordance with section 53(1)(c)(ii) of the MFMA.

Section 1 of the MFMA defines the SDBIP as:

a detailed plan approved by the mayor of a municipality in terms of section 53(1)(c)(ii) for implementing the municipality's delivery of services and the execution of its annual budget and which must include the following:

- (a) Projections for each month
 - (i) Revenue to be collected by source; and
 - (ii) Operational and capital expenditure by vote
- (b) Service Delivery targets and performance indicators for each quarter; and
- (c) Any other matters that may be prescribed,

and includes any revisions of such plan by the mayor in terms of section 54 (1)(c).

This Plan is therefore largely a one year detailed implementation plan which gives effect to the IDP and Budget of the Municipality.

It is a contract between the administration, Council and community expressing the goals and objectives set by Council as quantifiable outcomes that can be implemented by the administration over the next twelve months. This provides the basis of measuring the performance in service delivery against end year targets and implementing budget.

3. WARD INFORMATION

Matatiele is one of four local municipalities within the Alfred Nzo District, and is located on the northern part of the Eastern Cape. Matatiele has three towns, namely: Matatiele, Cedarville and Maluti. Matatiele consists of the following 26 wards:

Population of Matatiele per Ward and the Number of Households:

Wards	Population size per ward	Number of households in a ward
1	6 434	1 330
2	13 574	3 069
3	7 811	1 880
4	8 324	2 006
5	8 474	2 037
6	7 399	1 968
7	7 611	1 684

8. CONCLUSION

The SDBIP is a key management, implementation and monitoring tool, which provides operational content to the end-of-year service delivery targets, set in the municipal budget and IDP.

Together with the OPMS it determines the performance agreements for the municipal manager, General Managers and Middle Managers and, whose performance can then be monitored through section 71 reports, and evaluated through the Midyear Performance Reports and the Annual Report (AR) process.
